Local Affairs.

Should to-morrow prove to be a fair day, hundreds of our fellow citizens will visit the Executive mansion to congratulate our worthy Chief Magistrate upon the happy condition of our country, and show their respect for an honest and faithful public servant. Everything of a political character is forgotten upon occasions such as this, and all parties combined to tender their respects to the President of the United States.

The Merry Wives of Windsor is to be performed at the National Theatre to-night, and a crowded house may be reasonably expected, in consequence of the appearance of Hackett as Sir John Falstaff, and Misses Fitzpatrick and Lonsdale as the "Merry Wives."

As yet nothing of importance sufficient to attract large crowds to the galleries of the Houses of Congress, has occupied the attention of either house; though before the close of the session, there may be some important business, fine speaking, and crowded galleries.

The Aztec children are now holding their levees at "Iron Hall." They are said to be a great curiosity. We cannot speak from observation, as we have not yet seen them.

We have heard much complaint of late of disgraceful acts of rowdies who have yet escaped the officers. The officers are frequently charged with negligence by persons who do not consider that they are not omnipresent. The recent acts of rowdies in the First Ward; the breaking of pump handles, etc., have brought out many such remarks as "I wonder why they are not punished?" "Where are the watchmen?" Now if the citizens really wish to get rid of rowdies, they must assist the officers in bringing them to justice, and faithfully perform their duty as good citizens, by giving information whenever they know the parties concerned in these outrageous acts.

In the Criminal Court Yesterday James Shields was found guilty of stealing a watch, and sentenced to eighteen months in the penitentiary.

Thomas King, charged with stealing a barrel of flour, was tried and acquitted.

The watch house has been clear of rowdies and rowdies for a day or two past, as only inmates last night were two persons who went there for lodgings.

PANORAMA.—The Washington correspondent of the Baltimore Clipper comes down on the "thunder and lightning" of this magnificent painting. It was well for the writer to understand the first principles of this imitation of the powers of Jove before he attempts to explain. "His roiling ball, and sheet-iron thunder, and burnt rosin," are not found in Odd Fellow's Hall. The truth is, the thunder is natural, and unequalled, surpassing anything ever exhibited in Washington; now amid the mountain peaks in storm and lightning coming with wild terrific crash, leaping with mad fiery eye from crag to crag shaking the world! now calmly dying away upon the ear like the gentle murmurs of the mighty ocean when the storm hath ceased. It is truly sublime!

ADAMS & CO'S EXPRESS.—The ship Fanny sailed from Boston on Friday for Australia, with a large number of passengers. The Times says:—"Among them we see the name of Mr. Mowton, of the great Express house of Adams & Co. He goes out to establish a branch of their extensive banking and express concern, which has now extended from Boston over three continents. When Mr. Adams commenced running with his single trunk between Boston and New York, no man could have been wild enough to predict the results which have all grown out of industry, perseverance, promptness, politeness, and liberal advertising."

REGIMENTAL HEADQUARTERS OF VOLUNTEERS, Washington, Dec. 30, 1852.

In accordance with an invitation received from the Committee of Arrangements for the "Inauguration of the Equestrian Statue of General Andrew Jackson" on the 8th day of January next, the Regiment of Volunteers will assemble on the usual parade ground, in front of the City Hall, at nine o'clock A. M. on that day, for which the officers commanding companies will give the necessary orders.

The occasion in an especial manner invites the cheerful co-operation of the military, since it directs the attention of the American people to the erection of a statue to endure for ages commemorative of the genius and valor of a soldier whose extraordinary deeds in arms were even surpassed by his ardent love of the country, so well illustrated by his memorable declaration, which is now, and will ever remain a watchword with every friend of his country:

"The Union must be preserved!"

By order of the Colonel Commanding: JAMES A. TAIT, adjutant. dec 31—

Root's Wonderful Daguerreotypes. Go to Root's! No matter whether it be clear or cloudy weather. Still, with equal truth he traces Multitudes of lovely faces! Root's Gallery, Pennsylvania avenue, near Seventh street. dec 30—

Take Notice.—Are you dry or hungry? If so, why call at Uncle Jimmy's where the best fried oysters can be had as well as oyster soup. His oyster and other pie are hard to beat, and the manner in which his beefsteaks, chops, &c. are cooked is a caution to the hungry. His ale is of superior kind. Our friend takes lodgers, furnishes meals at short notice at any time from 7 o'clock A. M. until 11 P. M. Suppers can be had for respectable ladies and gentlemen. He keeps a civil, quiet, and genteel house. dec 28—1w

GRAND MILITARY AND CIVIC BALL. THE Committee of Arrangements take pleasure in announcing that the Annual Ball of the WASHINGTON LIGHT INFANTRY will take place on Monday night, the 10th of January, at Jackson Hall. As it is the intention of the company to conduct this Ball similar to those given in former years, the committee deem it proper to state that a supper will be furnished by a competent caterer, and every effort will be made to make it equal to any ball ever given by the company.

Tickets \$2, to be had at the usual places. JOSEPH B. TATE, JOHN F. TUCKER, JAMES KELLY, JOHN W. MEAD, JUDSON O. WARNER, JAMES E. POWERS, J. R. MARSHALL, J. F. MITCHELL, JAMES A. KING, Committee of Arrangements. dec 21

MASON'S PATENT PURIFIED Sperm Oil. This oil, for brilliancy, durability, and purity as a light, and for lubricating purposes, whether applied to the delicate works of a watch or the most ponderous machinery, surpasses any oil now known. It is warranted not to gum, being entirely deprived of that substance, which so seriously impedes the rapid movement of all kinds of machinery; and for burning it is cheaper and better than any oleaginous substance now in use.

While it affords a light superior to gas or camphine, it is also free from the dangerous explosive quality of the latter, being solely sperm oil purified. So pure is this oil that it will not freeze at any degree of cold known within the limits of the United States; having thereby in this, as in every other particular, an advantage over the best sperm oil as now used.

After devoting many years in experimenting with the various oils, for the purpose of overcoming their impurities as at present fabricated, the undersigned assures the public that he has succeeded in producing the "ne plus ultra" of oils. He offers it as superior to any known oil in the world, for the purposes of burning and lubricating, and invokes the scientific all countries to test it and pronounce their opinion satisfied that all will agree that it is the finest oil ever offered for sale.
